

Giving people a voice to help shape local health and care services.

[Bedfordshire, Luton and Milton Keynes Health and Care Partnership](#) brings together local organisations, working together to support and improve health and wellbeing in communities in our area.

We're developing an approach to enable us to have continual conversations with our communities, giving everyone a voice and the opportunity to be listened to, express their views and help co-design health and care services that meet the needs of our local communities.

To help us shape our new approach, we want to hear **YOUR** ideas on how we could this, we also want to hear from our communities too.

Please share your ideas before 2 May 2022, by completing our [short feedback form](#).

Further information and the feedback form can be found at www.blmkccg.nhs.uk/get-involved-in-your-health-care.

It would be most appreciated if you help promote this work with members of your parish by sharing our social media post.
