EXTERNAL SENDER WARNING. This message was sent from outside your organisation. Please do not click links or open attachments unless you recognise the source of this email and know the content is safe.

Hi Janet,

I really appreciate that. Just to make you aware and you probably already know, but the road I live on probably requires just 3 or 4 more speed bumps to extend round the dangerous bend near the pub / station to make everyone feel more safe, especially for the elderly and children. I would suggest this would not cost much from the budget but would save lives and make all us local residents a lot more safe / happier.

I would also like to attend the town hall meetings if that's possible?

The 2 x people you have suggested to email - is that where I can find out the information of the new plans / investments for Arlesey for the future?

Subject: Planning / Safety

Message Body:

Hi Janet,

I was recently in touch with a Ian Dalgarno, however I am told he is no longer part of the Central Bed council now. I previously was pushing for speed bumps / speed safety around the top of church lane on the incredibly dangerous bend opposite the Old Oak Pub and the turning into the train station. I did a petition on this with over a 100 signatures from all the local neighbours living in danger of this. I also have 2 very young children who I worry about daily. I live at number 86 so right on the bend and even getting my car out of my drive is dangerous. I would very much appreciate if you could now help with this before something terrible happens.

I would also like to know the 10 year plan for Arlesey in terms of plans for the area. Now the relief road is complete would like to know of all other future investments / plans if that's okay.

Thanks,

Paul
