From: [REDACTED]
Subject: Water Fountains in Arlesey

Message Body:
Good evening,

I've seen that Stotfold Town Council have installed some water fountains to refill reusable water bottles over the past few months. As we move towards the warmer months in summer, does Arlesey Town Council have plans to install water refill points in the village so residents like myself can refill our bottles during our walks? Maybe one next to the old water pump opposite the council office would be a good location for the first one or by the Recreation ground for those youngsters who play sports and want to drink water afterwards.

I look forward to your reply.

Kind regards,
[REDACTED]
